

EAS

European Atherosclerosis Society

Founded 1964

The EAS' goal is to provide a framework for concerted scientific and clinical discussion of new developments in basic research, diagnosis and therapy of atherosclerosis and other cardiovascular diseases.

EAS today

Scientific Publications

- * Guidelines
- * Consensus Papers
- * Journal

FH Studies Collaboration

- * Global registry, 70 countries, 60,000 FH cases
- * Analyses & publications
- * FH Europe Partnership
- * WHF collaboration

For Young Scientist

- * Young Investigator Fellowship grants
- * Advanced Courses
- * Young Fellows of EAS Programme
- * European Lipoprotein Club

Education & Members

- * Congress
- * Advanced Courses
- * EAS Academy
- * Travel Grants

With National Societies

- * Rare Lipid Disorder Courses
- * Joint sessions & endorsements
- * Membership of EAS
- * Travel grants
- * Presidents' Meeting

Working with Others

- European Society of
- Cardiology
 - International
 - Atherosclerosis
 - Society
 - BioMed Alliance
 - European Society of
 - Vascular Medicine

- * International Federation of Clinical Chemistry
- * European Federation of Laboratory Medicine
 - Lp(a) Foundation

EAS unique strengths

EAS is a Society with a multidisciplinary approach to atherosclerotic vascular disease

EAS leaders have true expertise in the area - directors of major European universities, hospitals and lipid clinics, authors of Guidelines & Consensus papers

EAS-FH Studies Collaboration - a ready-formed communication network of lipid clinics contributing to the registry of FH-patient data

EAS Academy, the Society's online educational platform, can deliver training and teaching materials, as slides, webcasts, online learning modules, New Certificate of Excellence in Lipidology, etc.

With active collaborations with national atherosclerosis societies throughout Europe, EAS has effective international and national communication channels.

athe ESC/EAS Guidelines on management of dyslipidaemia 2019
