

# Condemning the Attacks Against Israel

Dear Colleagues,

As an organization dedicated to safeguarding people's health and well-being, we are horrified by the deadly terrorist attacks against Israel. The killings and hostage-taking by the militant group Hamas are barbaric and inexcusable. People have the right to safety regardless of where they live or worship. That solemn right has been brutally violated, with many innocent lives lost. As a community we strongly condemn these outrageous, hate-filled terrorist acts.

We know many of you are personally affected by this violence and some of you have family and friends or patients directly impacted. Please know that NYU Langone is here to support you. Employees have access to free, confidential counseling through CCA by calling 800-833-8707 or visiting the [CCA website](#) (company code: NYULH). You can find other employee resources on the ["Mental Well-Being"](#) Inside Health page.

Our thoughts and prayers are with the people of Israel and all of those whose lives have been touched by this senseless and hostile action.

Sincerely,

**Kenneth G. Langone**

Chair, Board of Trustees

**Robert I. Grossman, MD**

Dean and CEO
